Professional Freelancer Profile

JD | Frontend Web Developer | Responsive Website & Bug Fix Expert

Profile Summary

I am a dedicated Frontend Web Developer with hands-on experience in building responsive, user-friendly, and modern websites using HTML, CSS, JavaScript, Node.js, and Express.js. I specialize in creating professional landing pages, fixing website layout and frontend issues, improving mobile responsiveness, and deploying websites smoothly. I also have experience building practical web tools and utility-based web applications.

Core Services

- Responsive website development using HTML, CSS, and JavaScript
- Landing page creation for businesses and personal brands
- HTML, CSS, and JavaScript bug fixing
- Mobile responsiveness and layout improvements
- Frontend UI fixes and section alignment
- Small web tools and custom frontend interfaces
- Basic Node.js and Express.js integration
- Website deployment support

Technical Skills

Frontend: HTML5, CSS3, JavaScript, Responsive Web Design, Landing Page Design, UI Fixes
Backend: Node.js, Express.js, Basic Backend Integration
Tools: Git, GitHub, VS Code, Website Deployment

Highlighted Project

ConvoDoc – Online PDF Tools Website
ConvoDoc is a practical web-based PDF utility platform designed to help users perform common document tasks efficiently. The project includes a modern frontend interface, utility-focused features, frontend-backend integration, deployment handling, and a strong focus on usability and performance.

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js

Work Style

I focus on clean design, fast performance, mobile responsiveness, clear communication, and on-time delivery. My goal is to provide reliable and professional results for every client project.

Note: This freelancer profile is designed for use on Fiverr, Upwork, LinkedIn, direct client outreach, and as a supporting profile document.

CERTIFICATE

OF COMPLETION

This is to certify that

Amit

from

Mandsaur University

has successfully completed the **AI for Sustainability Virtual Internship** organized by **1M1B (One Million for One Billion)** supported by **AICTE** in collaboration with IBM SkillsBuild, from **Dec. 2025** to **Jan. 2026.**

During this internship, the participant gained practical experience in AI, responsible AI use, and key sustainability concepts aligned with the UN SDGs. They learned to use Agentic AI and RAG systems to solve real-life problems, demonstrating strong problem-solving and impact-driven skills. We congratulate them on their successful completion.
